SECURITY SYSTEM PRODUCT INFORMATION

Traffic Lights and Car Coming Light

The Soundcraft traffic light systems, for apartment buildings and multi level parking facilities, use long life LED displays and come with a 5 year warranty on the equipment.

- BT-CC Car Coming Light and Sounder (to ACC Specification): 12 volt power supply which can be drawn from the standard ADI roller grille controller.

Car Coming

BT-RGT: Dual red/green traffic light systems, 12 volt 2 wire system. The VDB101 vehicle detector PC board operating on 12 volts designed to auto tune to an inground detection loop.

Traffic Lanterns

Software Control

The BT RGT and the VDB101 are used in conjunction with a custom design software package that can be loaded on to a Gensis Security Access System to provide full control of the phasing and timing of the traffic light system or ramp control.
